Pet projects

Social Network – in progress
Link -- http://justanothersocialnetwork.pythonanywhere.com/
Social network with functions of signing up, logging in, resetting and changing password, creating posts, commenting, following and using groups. New features in progress.

Symbolic counting of derived functions
Link -- https://github.com/DanSmirnoff/differentiation
The link above contains a program that symbolically calculates the derivatives of functions

Education   September 2020 - Present

National research university MIPT
Bachelor – quantum electronics

About me

I am studying at the Yandex practicum Python backend plus course, studied in the MIPT Advanced algorithms group, familiar with c++ syntax.
Interested in python development.
I am striving to gain new knowledge and skills and ready to work for this.
